

## COELAN Anti-Slip

### Technical Data Sheet

(Issue: 2023-03-14)

#### Application areas:

---

Glass powder for full or partial scattering into various COELAN coating systems to increase anti-slip properties.

#### Colour / Gloss:

---

- transparent

#### Product features:

---

- Glass powder 105 - 210 µ

#### Package size

---

0,3 kg tin

#### Material consumption:

---

- According to requirements

#### Shelf Life:

---

Store in closed original containers in dry rooms.

#### Disposal

---

#### Disposal when liquid:

/

#### Disposal when cured:

EAK 17 02 03

#### Substrate:

---

- COELAN Anti-Slip can be applied to existing COELAN Coating systems using a coloured or transparent layer of adhesive.
- For further information on substrate pre-treatment and application, please refer to the separate technical data sheets and the application instructions.

#### Application temperature:

---

Material, atmospheric and surface temperature: at least +5°C to max. +30°C.

Relative humidity: < 80 %

The substrate temperature must be at least 3 K above dew-point temperature.

#### Application Instructions:

---

- The existing COELAN coating can be activated with KEMCO LE Flexo Adhesive Primer or COELAN Flexo Primer LE for boat coatings (see corresponding technical information).
- Apply transparent or colour adhesive layer (approx. consumption 250 g/m<sup>2</sup>).
- Full or partial coverage with COELAN Anti-Slip.

During and after the application, please ensure even and continuous ventilation in order to guarantee a uniform drying process.

For additional information, please refer to the system product's respective Technical Data Sheets and work instructions.

#### Important notice

---

Based on our experience and to the best of our knowledge, this technical data is up to date and all information is current. As there might be operating conditions of which we have no knowledge and cannot have any knowledge, this data sheet shall be considered for information only and without responsibility.
